

PCI Surgeon Volume Comments

General Surgeon Volume Comments for all hospitals

Lahey Clinic
Massachusetts General Hospital
Saints Memorial Medical Center

Lahey Clinic

In some cases, physicians perform procedures at more than one hospital. Thus, any one physician may have done many more procedures in a year than are measured at any one hospital.

Massachusetts General Hospital

We are showing and endorse the data collected and submitted to the DPH as part of the statewide collaboration between DPH, the state hospitals, and the statistical and data experts of MassDAC. Although the full data set for FY 2004 has not been finally verified, the identity of the interventionalist is accurate at this point.

Saints Memorial Medical Center

SMMC program began 8/17/04 there for this reflects a 6 week period of 2004.
